

V1080 FLOOR MOUNTED DOOR STOP

Buffer

1

FLOOR MOUNTING TEMPLATE MUST be printed off at full scale when using this template

FITTING

- 1 Position base part behind door at a point more than half way along from the hinged edge and determine where to drill fixing holes as desired, there drill a 6mm hole for the affixed [anchor] and a 3mm drilled hole (or larger to allow for rawplug if you have concrete floors) utilising the template as given above.
- 2 To assemble: Locate the anchor point and insert.
- 3 Next affix the door stop through the assigned hole using the 32mm screw provided (as illustrated).
- 4 Tighten and test

Overview

- 1 Door Stop illustrated with floor template
 - 2 General dimensions of assembly
 - 3 Supplied with:
1x 32mm screw
1x starter screw
- 1x plastic rawplug
