SALONE DEL MOBILE 2022

Here are some of our favourite launches we discovered at the EuroCucina and International Bathroom Exhibition, part of Salone del Mobile, the grand furniture fair set in the heart of Milan.

AI POWER

Samsung's existing range of kitchen and living area appliances have had a modern upgrade with stylish colours, new features, and premium finishes. The latest Bespoke range brings smart ovens with Dual Cook Steam and Sense-to-Open functions, dishwashers, and sleek hobs to the UK. Plus, expect artificial intelligence (AI) washers and dryers for a super-hygienic wardrobe, too. Coming soon, [samsung.com](https://www.samsung.com)

Heavenly textures

Spanish bathroom manufacturer Acquaella revealed its Infinity 1 and Infinity 2 counter-tops with integrated round basins. Great for ensuite or busy family bathrooms, the double basins feature sleek and sophisticated curved edges. Pictured here are the Infinity counter-top in Cement, from \$9.13 per cm, and standard panel in Beton and Cement, \$230. [acquaella.com/en](https://www.acquaella.com/en)

Hide & seek

Falmec's Air Wall extractor, available from October, is the ultimate solution for purifying the air in a minimalist kitchen. The vertical backlit panel in white tempered glass was developed in collaboration with Magnetirol, so its magnetic system allows you to keep accessories anywhere on its surface. Price on application, [falmec.it](https://www.falmec.it)

Also spotted at CLERKENWELL DESIGN WEEK

This year we noticed an abundance of gorgeous kitchen handles. We've rounded up some that caught our eye...

right Ideal for doors that are between 15 and 20mm thick, Swarf's Edwards oval handle features a semi-circular edge-pull design with an elegant curve detail. It can be used both horizontally and vertically and is available in a silver ultra-matte and in white powder-coated steel. Priced £15, [swarhardware.co.uk](https://www.swarhardware.co.uk)

left Inspired by iconic 1950s racing cars, Croff's new Racing Series introduces the Legacy collection, modelled with stripes originally used to identify team members during races. Legacy 120mm cabinet handle in imitation bronze (unacquired), £62.40, [croff.co.uk](https://www.croff.co.uk)

Retro love

As a nod to Scavolini's holistic approach to design, the Jeometrica collection, created together with designer Luca Nichetto, provides chic solutions for kitchens, living rooms, and bathrooms, influenced by 20th-century designs. The tall cabinets come in birch textured melamine with an aluminium frame and titanium finished tubular handles, while the island mixes neutral polished glass with marble surfaces. The intro's open shelving and the wall panel bring a pop of colour to the scheme. Scavolini kitchens start from £10,000, [scavolini.com](https://www.scavolini.com)

WINE O'CLOCK

Keep your favourite bottles in top condition with the 8000 Perfect showing cabinet from AEG, unveiled at EuroCucina. With UV-treated tinted glass doors, dark interiors and UV-free LED lighting, as well as natural permanent ventilation, adequate humidity levels and vibration-proof shelves, you can maintain the quality of your wine with ease. From £1,929.99 for a Single-Zone Pro unit, [aeg.co.uk](https://www.aeg.co.uk)

SMALL KITCHEN? NO PROBLEM

Falper revealed Small Living Kitchens, a new concept for cooking zones in spaces as small as 2.5sqm. Made up of islands, storage and tall units, the system - created in collaboration with designer Andrea Federici - balances aesthetics and function. From around £17,911.42 (£21,000) for a complete kitchen, [falper.it](https://www.falper.it)

left Downs & Reynolds upgraded their handles in chrome and brushed copper finishes to help you coordinate your hardware to existing fittings, such as chrome trim. The warm brushed copper finish elevates the knurled texture of the Skyscraper handle. From £19.99, [dowsandreynolds.com](https://www.downsandreynolds.com)

right Using Art Deco elegance, the Stepped collection from Heritage Brass includes slim, die-cast hardware in seven finishes, from matt bronze to polished chrome. From £14.85 for the showy Stepped oval pull handle, [m-marcus.com](https://www.m-marcus.com)
